All Is Ready For 4th Annual Fall Festival Crowds

Retail Sales Jump In Coffee County, Top State Average

Coffee County was among one-third of the counties in Alabama with larger retail sales in 1958 than in 1957, according to the preliminary report of the Bureau of Census, U. S. Department of Commerce.

There are 67 counties in Alabama and 20 counties showed increased retail sales in 1958 over 1957. Coffee county showed \$20,000,000 as compared to \$15,431,000 in 1957, or almost one-third. This is above the average for the state which was 17.5 per cent.

Madison and Limestone counties stood out with increases of 63.7 and 52.2 per cent respectively. Right behind in percentage increase came Coffee, Marshall and Jackson counties. Those with increases of more than 25 per cent were Lawrence, Tuscaloosa, Randolph and Jefferson counties. Those with increases between 20 and 25 per cent were Morgan, Etowah, Autauga, Mobile, Shelby and Jackson counties. Those increasing their sales nearly 20 per cent were Houston, Walker, Cleburn, Lee and Fayette.

Sixteen counties in Alabama suffered decreases in retail sales between 1957 and 1958. They were Lowndes, Washington, Sumter, Crenshaw, Macon, Barbour, Chambers, Elmore, Franklin, Russell, Geneva, Wilcox, Chambers, Hale, Pike and Cherokee.

Coffee County also had increased retail sales between July and August this year of 11.1 per cent, and an increase from August, last year, to August, this year of 1.7 per cent.

These figures have just been published by the Bureau of Business Research, School of Commerce and Business Administration, University of Alabama.

Dorsey Outlook Is Confident; Plant Improvements Made

Despite the business slump felt throughout the nation, the management of Dorsey Trailers looks forward with enthusiasm and confidence for the months and years ahead, announced George L. Collier, the company's president, yesterday.

Much progress has been made at Dorsey in the past year, Mr. Collier said. New warehousing and storage facilities have been provided. New equipment and machinery were purchased. New quarters for the operation of the IBM Department were built. New trailer models and new innovations have been designed, new and more efficient methods of operation have been introduced.

Now in progress, continued Mr. Collier, is the project of erecting a new front for the Dorsey plant of modern design. When completed, the Dorsey Trailers Plant will be of distinctive and attractive appearance. Executive offices have been redesigned, with the ultimate goal of erecting a new administration building which will house many of the departments under one roof.

"Dorsey Trailers", said Mr. Collier, "bases its outlook on the future on interviews with some of the leading fleet operators in the Nation who are of the opinion that the trend in business should gradually begin to rise."

GOING UP!

The direction is forward! Elba, Western Coffee County and Southeast Alabama forge ahead!

Our forefathers left us a better community than they found. Let us leave our children a better community than we found.

Let us, today, express our gratitude, and let our actions be an expression of goodwill.

Elba, in common with the rest of the country and the world, has experienced a business downturn. But that is merely one of the jagged breaks in a chart on the wall which, viewed from a distance, shows a steady upward climb.

To name a few recent milestones of progress:

- (1) The final hurdle has been cleared for building a hospital to serve Western Coffee County and construction is scheduled to begin within six months;
- (2) Dorsey Trailers remains entrenched as the third largest trailer manufacturer in the world;
- (3) An overhaul of the Elba Court House is under way;
- (4) The Choctawhatchee - Pea River Development Association experienced its greatest growth in membership during the past year with a greater realization of the vast potentials for development of the river system for navigation, flood control and hydro-electric power;
- (5) Whitman Trailers, Inc., doubled its output during the past year and is still growing;
- (6) The First Federal Savings and Loan Association of Coffee County, organized little more than a year ago, has taken its place as a strong institution for loans to home buyers and builders, and for savings;
- (7) Construction has recently begun of a new arterial highway through Eastern Coffee County which will link Troy, Sprinkhill, Enterprise, and Hartford on a direct route to the Gulf Coast;
- (8) Electric power use in the city of Elba has more than tripled during the past 10 years, a rate of growth far in excess of the national average, and the use of electric power represents no better gauge to measure the growth of any area.

Now for a look to the immediate future:

- (1) In the planning stage by the State Road Department and federal government is a bigger arterial highway leading from North Central Alabama to Laverne thence to Brantley, Elba, Samson and Panama City on the Gulf Coast;
- (2) Improvements by the United Telephone and Telegraph Co. which provides telephone service in Southeast Alabama;
- (3) A farm produce market, state administered and state regulated, which would operate on the same principle as a livestock market and where farmers could take their produce to sell in a competitive market, and provide an incentive to farm on small tracts of 10, 15 or 20 acres.

Elba's Name Taken From Hat; City Has Colorful History

The history of Elba's growth began in 1830, when Mr. McLane established a ferry at what is now Elson and Park streets. On Dec. 29, 1841, Coffee County was created out of Dale by an act of the Legislature. The county was named after General John Coffee of Lauderdale County, who had served in the war of 1812. The Legislature designated Wellbourne, about a mile from Damascus, as the county seat.

Court House Moved

There was widespread dissatisfaction with the location of the court house so an election was held Oct. 5, 1932, resulted in Elba being selected as the site.

However, the community here had acquired its name about six years before. A group of citizens had gathered to discuss a community name and could not agree. Finally it was decided that each person should write the name of his choice on a slip of paper and put it in a hat. The name drawn from the hat should be designated as the community's name.

A member of the group named John B. Simmons had been reading about Napoleon Bonaparte and had written the word "Elba" on the slip of paper he put in the hat. This happened to be the name to

"Battle Royal" Is Staged In Race For Brand New Corvair

More and concerted action, on the part of participants in The Elba Clipper's big prize subscription contest, has taken place during the past few days than at any other time since the race began; and, with honors almost equally divided between the leaders, the "battle royal" is at racing area-wide attention and interest.

Leaders Closely Bunched

So closely bunched are present leaders it depends largely upon individual effort and the support of loyal friends during the remainder of this week — while the maximum number of votes remain in effect — as to who will ultimately be declared winner of the beautiful new 1961 Corvair Sedan.

A striking feature of the past few days is the personal pride that is becoming noticeable among contestants.

One of today's leaders declared: "very frankly I'm making no bones about the fact that I'm out to win the Corvair and if steady, persistent work during the remaining time of the contest means anything, the others will know that they've been in a race before it's over."

Another contestant expressed herself in this manner: "I do so very much want a new Corvair for my very own. And what's more, with the continued support of my friends, I believe I can win."

Others, too, are determined to finish victorious and are setting appropriate action to that determination.

Baptist Officers Will Meet Monday

A Church Officers' Clinic will be held at the New Brockton Baptist Church, Monday, Nov. 7, at 7 p.m., sponsored by the Coffee County Baptist Association under the leadership of the Training Union Department. Karl E. Seeger, Association Director, will be in charge, assisted by other leaders.

Special individual conferences have been planned for Deacons, Church Clerks, Church Ushers, Pulpit Committees, Nominating Committees, and Church Property Committees.

Among those leading the conferences will be Judge E. H. Paul, of Elba; Dr. B. R. Justice, of Enterprise; Pastor Thomas H. Stone of Park Ave.; Mr. J. D. Heath, and Mr. J. W. Boyzeman, of Mt. Pleasant, and Albert L. Strozier, Association Clerk.

Boy 8, Recovering From Head Injuries

Eight year old Hugo Davis, son of Mr. and Mrs. Wilbur Davis, is recovering at his home on Kingston highway after 17 days of unconsciousness in Mizzell hospital from injuries suffered when hit by a truck in front of his home Saturday, Sept. 17.

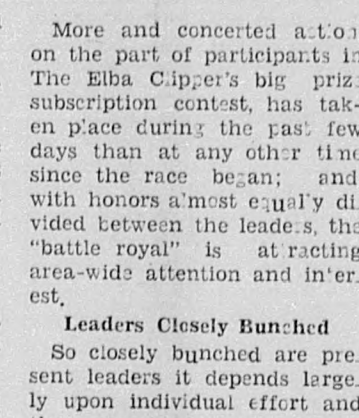

The boy suffered a broken right collar bone and broken right leg, though his skull was not fractured as was feared at the time of the accident. He was riding a home made motor driven tractor on the road when he turned in front of a truck driven by James M. Hawkins, 42, of Elba, according to police investigation.

Five Alabama Cities Classed Depressed

A final ruling on 15 counties voted has been received by the management of Dorsey Trailers from the National Labor Relations Board certifying 280 votes for two labor unions and 295 votes for no-union.

"We will spare no effort to justify the faith and confidence you have placed in us," said a letter of President George L. Collier to the employees. "By working in harmony and friendship for the common good for all, we are bound to succeed and prosper."

Sky Thrillers At Festival—

Thrills galore are promised by a team of Fort Tucker sky divers at the Elba Fall Festival Saturday. Three parachutists will take off from Elba Airport at 3 p.m. and climb to a height of 8,000 feet. One man will jump and fall free for ten seconds before he pulls the string for the parachute to open, to be followed by two others who will wait 10 seconds before they pull the string, and pones to a tight within a 10-foot circle.

Something Doing Every Minute To Be Order Of Day

Plans have been made to welcome a crowd of 5,000 people to Elba Saturday for the Fourth Annual Fall Festival, promised to be bigger and better than ever before.

The day's entertainment will begin at 10 a.m. with an act on the Public Square by the famous "Starlights", U. S. Navy, Pensacola Air Base rebound tumbling team and there will be something doing every minute for the rest of the day.

Nationally Famous

The tumbling team's act will be performed on a Trampoline, the new act that is sweeping the country, and the team will give the same performance which drew the parade at the 1959 Olympic Gymnastic Squad Trials of the National AAU Championships.

The attention of the crowds will then be drawn to the reviewing platform in front of the Elba Theatre where the event will be investigation and introduction of guests just before start of the big parade around the square including floats with Mrs. Elba the Elba High School band and visiting bands to be followed by a band and riders come at 12 o'clock, noon.

Thrills Galore

The program will be resumed at 1:45 p.m. and a second act by the Naval Team, alone team at 2 p.m. Thrills galore are promised at the Elba Airport at 3 p.m. when a parachute team from Fort Tucker will perform in jumps at 8,000 feet in free falls for 10 seconds before the chute opens. Micro Midst races will follow at the Elba Race Track.

The complete program follows:

10:00 A. M. — Naval Trampoline Act.
10:10 A. M. — Invocation and introduction of guests.
11:00 A. M. — Parade.
12:00 Noon—Band and Fiddlers Concert.
1:45 P. M. — Activities Resume on Square.
2:00 P. M. — Naval Trampoline Act.
2:00 P. M.—Parachute Jumps at Airport.
4:00 P. M. — Micro Midst Auto Races.

NEW BROCKTON ARMY Bd for the new Nation 1 Guard Army at New Brockton will be let within the next 30 days, the building is expected to be ready for occupancy by September 1, 1961, according to Major Ruben F. H. H. V. Graham and Col. R. G. Sheppard of Montgomery, who inspected the new site last week.

NEED OLD PAPERS

Boat owners seeking to register their boats for the 1960-61 season under Alabama's water safety law, were reminded today by the Conservation Department's Water Safety Division that the old registration certificate is required when re-registering.

TWO RETIRE

Two employees at Dorsey Trailers completed 15 years of employment and received retirement checks last week. They were Robert B. Queen, who worked most of the time as a carpenter on platform trucks, and Gafford T. Thomas, who worked in the paint department.

NEW COMPACT ON DISPLAY

The Tempest, new compact of Pontiac, will go on display at Perse Motor Co., in Enterprise, Thursday. The Tempest weighs about 2,600 pounds, has rear transmission with 1.6 four-cylinder engine in front.

New Brockton Man Gets Grocery Prize

Bobby R. Danford of New Brockton has been announced as winner of the Piggy Wiggy "Live Free For A Month" Contest.

Mr. Danford made his purchases from the Piggy Wiggy store of Earl Sawyer in New Brockton.

DEATH TAKES THREE

Death took three members of the family of Harry Boswell, proprietor of City Electric and Plumbing Co., last week. They were: his sister, Mrs. Louise Lee, and her daughter, Betty Lou, 11, and his sister's daughter-in-law, Mrs. Anna Lee, all of Crestview, who were killed Friday last week at 7:15 p.m. in Pensacola when the car in which they were riding collided head-on with a truck.

KINGS AND QUEENS

The New Brockton High School Carnival last week had Tommy Steele and Donna Pittman, eleventh grade students, as king and queen in the elementary division. Keith Whitfield and Paula Cord were Junior King and Junior Queen.

POOR ORIGINAL

Cotton Farmers To Vote Dec. 13 To Determine Quotas

Cotton growers will vote Dec. 13, in their annual referendum to determine whether to use a system of marketing quotas for the upcoming crop of upland cotton. Chairman, Lester Gunter of the County Agricultural Stabilization and Conservation committee has announced.

If approved in the referendum, the system of quotas would apply to the 1961 cotton crop. This would be the eighth successive year in which quotas have been in effect for upland cotton.

Upland cotton quotas have been proclaimed by the Secretary of Agriculture on the basis of an official determination that the estimated total supply of cotton for 1960-1 will amount to approximately 21.7 million running bales, or about 3 million bales above normal.

If marketing quotas are approved in the December 13 referendum, price support will be available to growers who comply with their allotments at a level within the range of 70 to 90 percent parity. As in other years, the exact level of price support will be determined later.

Mary Jo Wise Named Coffee County Farm Bureau For 1959-60

Mrs. Mary Jo Wise, daughter of Mr. and Mrs. Joe W. Wise, was named president of the Coffee County Farm Bureau at an executive meeting of the Board of Directors Tuesday. She will compete for the title of state queen at the state convention.

The board advised John Garrett of Snowdon for president of the State Farm Bureau. Vice President, Martin Sanders presided at the meeting. Letters endorsing Garrett from the Coffee County Cattlemen's Association and the Coffee County Dairy Association were read.

selected to go to the annual meeting of the Farm Bureau in Mobile Nov. 13, 14, and 15: Elmer Bryan, county president; Marion Sanders, vice-president; Ewell Griffin Heber, Clark, Wilden Bryan and C. C. Howell. Also named were Carl Brooks, Oren Brown, James Wilson and Flo d. Harold Carroll.

Drive Slow and Live Longer

LEAD DIMES MARCA
Dr. Frank A. Rose, Turello, and Thomas F. Parker, Montgomery, will lead Alabama volunteers in their New March of Dimes next January. Dr. Rose, president of the University of Alabama, is serving as state chairman for his third consecutive year since coming to Alabama in 1938. Mr. Parker, prominent Montgomery attorney, also served as co-chairman with Dr. Rose for the 1960 campaign which brought signal honors to the state's corps of volunteer workers.

Lt. (jg) T. K. Windham of Elba is serving in the Navy R

OTC unit at Auburn, as one of 2,500 ROTC cadets in the fall quarter.

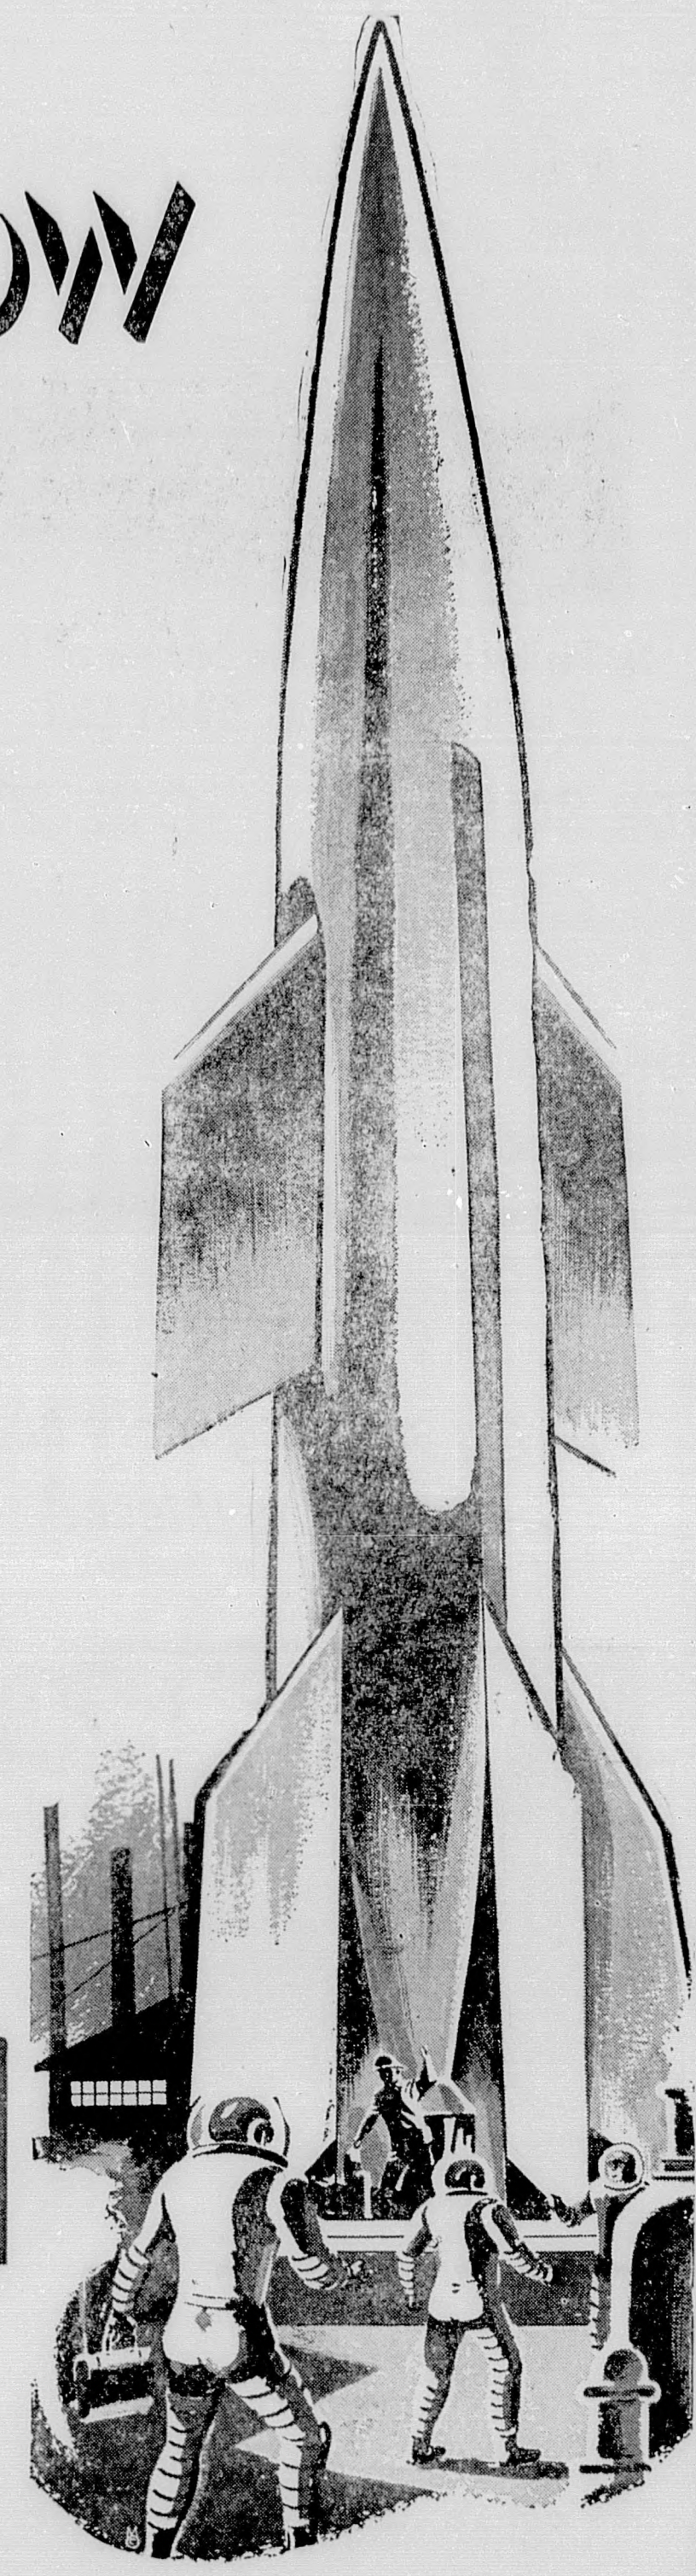

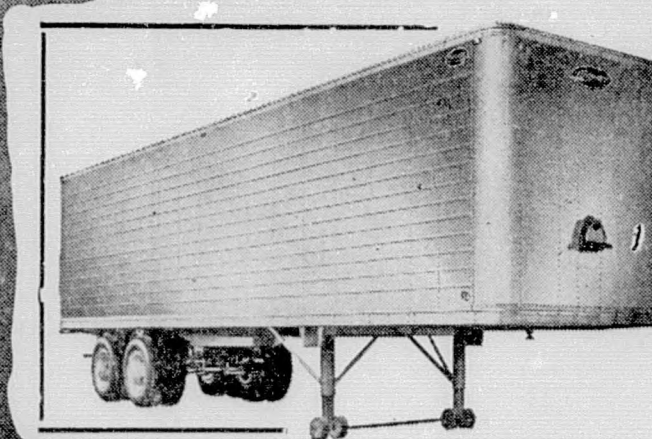

SHOP IN ELBA AND SAVE

GOT A SUMMER COLD TAKE 666 for symptomatic relief

the challenge of TOMORROW

The shape of things to come in the Elba of tomorrow will be determined by the frontiers we blaze today! Frontiers for ourselves and frontiers for the youth who come after us! The work performed by our Chamber of Commerce, our city and county governments, our schools and churches, the Annual Fall Festival—all these constitute the frontiers of today for a bigger and better Elba, Coffee County, Alabama, and America.

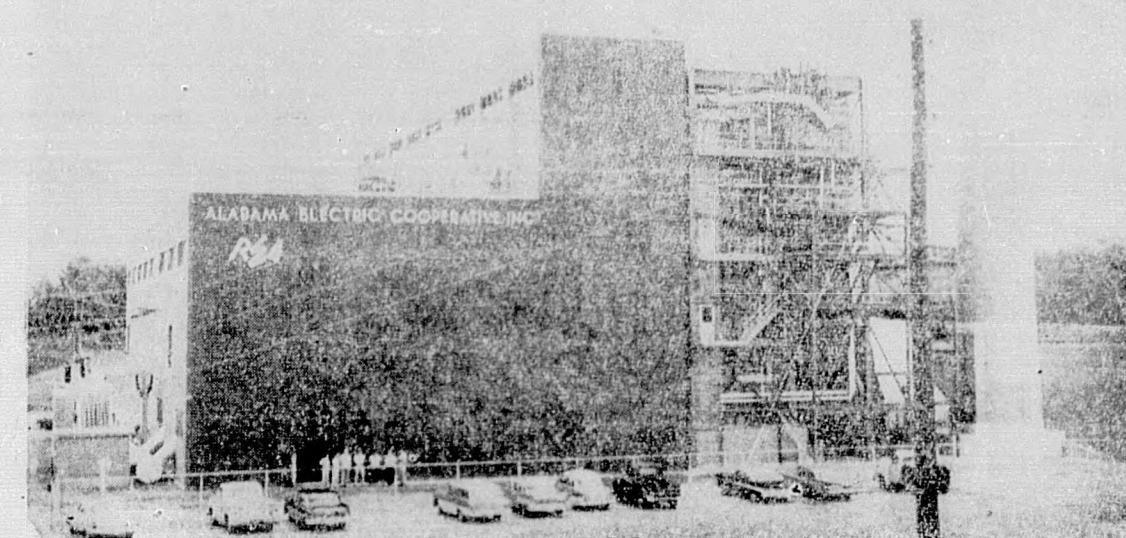

A Salute To Elba!

Alabama Electric Cooperative is happy to join in a salute to Elba and its citizens during 'Fall Festival' week, in recognition of Elba's fine growth and progress in recent years. As the wholesale supplier of electric power to the City of Elba, Alabama Electric Cooperative is grateful that it has been privileged to play a part in this growth.

To the officials and citizens of Elba who have worked together in a fine spirit of community cooperation to help Elba grow and develop, your friends at Alabama Electric Cooperative say 'Congratulations!' Too, we pledge to you our continued support, cooperation and assistance as you look toward the future with great confidence and the full expectation that the years ahead will bring even greater growth to Elba.

More Power To Elba!

There is no better gauge to measure the growth of any area, than its use of electric power. It is, therefore, especially significant that the electric power requirements of the City of Elba have more than tripled during the past 10 years, a rate of growth far in excess of the national average!

Alabama Electric Cooperative is keeping step with the growth of the City of Elba and its 13 other wholesale power consumers in South Alabama and Northwest Florida. Solid evidence of the faith which Alabama Electric has in the future of Elba and the growing South Alabama - Northwest Florida area can be found in Alabama Electric's recently - completed \$5 million improvement and expansion program. Along with Elba and its citizens, Alabama Electric Cooperative is constantly looking toward the future, too.

Rev. Bowden of Howard College was guest speaker for the church Sunday. He was entertained in the home of Mr. and Mrs. Doyle Bragg and Mr. and Mrs. Billy Paul McCollough.

"IT TAKES VISION AND COURAGE TO CREATE"

By Owen D. Young (1874)
The large pharmaceutical firms who supply the medicines we dispense in your prescriptions spend up to 10% of their income on research. No sooner do they perfect a new drug to treat a particular ailment, then they immediately start to find a still better one to replace it.

It takes courage to invest such vast sums in research. If no important discovery develops profits can vanish. Medicines that originally cost millions of research dollars to create finally, when perfected, cost only a few dollars per treatment.

Golden Wedding Anniversary Observed By Mr. and Mrs. John Galimore Here

MR. AND MRS. JOHN GALIMORE

Mr. and Mrs. John Galimore were honored on their 50th wedding anniversary Sunday, Oct. 23, when their sons and daughters were hosts at a reception at the home of their parents on Sunset Blvd.

Bronze and gold chrysantheums in beautiful arrangements were used throughout the reception rooms. The table in the dining room was covered with a lace cloth, over gold colored satin. The anniversary cake bearing the number 50 was placed in the center of the table from the cake to the two front corners there extended gold satin ribbons which were tied in bows festooned with yellow chrysanthemums and lily fern. A crystal punch service complemented the table appointments. Guests were greeted by Mrs. Alvie Galimore and presented to the honorees and their children Mr. Alvie Galimore, Mr. D. J. Galimore and Mrs. Dorothy Ems, of Lakeland, Florida.

Mrs. J. M. P. of Mobile registered the guests. Mrs. D. J. Galimore cut the cake and Mrs. Gwendolyn Galimore presided in the gift room. Mrs. Jackie Galimore served punch, Pam Galimore and Reba Jo Ems passed the napkins.

Mrs. Joan Mayo, Mrs. Bobby Hall and Mrs. Myrtle Cain served sandwiches, nuts and mints.

Mr. Galimore wore a yellow boutonniere and Mrs. Galimore's corsage was a gold colored orchid.

Out of town guests included Mr. and Mrs. I. Q. Isher and children, and Mr. and Mrs. Tom Nelson, of Montgomery. Mr. and Mrs. J. C. Nelson, Mr. and Mrs. A. A. Bryan and

College Visitor Entertained At Party Here

Mrs. Linda Crook of Auburn visited her parents, Mr. and Mrs. Lloyd Crook, the past weekend. She had as her guest Miss Barbara Gilbert of Birmingham.

Barbara was entertained with a spend the night party Saturday night. Those enjoying the occasion were:

Barbara Gilbert, Sandra Paris, Susanne Hayes, Polly Ann Clark, Martha Cooper, Janet Warr, Mary Jo Smith and the hostess, Linda Crook.

School Paper Staff Has Covered Dish Supper

The staff of Elba High School's new paper, "The Times" and a few invited guests enjoyed a covered dish supper at the home of the faculty sponsor, Mrs. Helen McCollough Tuesday, Oct. 24.

The food was served cafeteria style from a long table on the back lawn. Following the meal a program of impersonations and singing was enjoyed.

Those attending were: Patrice Mathis, Jimmy Harrison, Ella Kate Allen, Faye Crocker, Louise Dewberry, Gayle White, Shirley Johnson, Malcolm English.

Glenda Williams, Cecelia Burkett, Ida Faye Maudlin, Martha Cooper, Phyllis Purvis, Margie Farmer, Joan Bradshaw, Nan Brown, Edna Hildreth, Margaret Hudson, Yvonne Bryan, Bobbly Inman, Mr. and Mrs. Sam Cisey, Mr. and Mrs. Marion Brunson, and Mr. and Mrs. J. W. Kendrick.

Horn can now be removed safely

and more humanely with improved technique. Most veterinarians switch to use of either a dehoring clipper or an electrically-operated saw.

Skill and training are needed with both of these, however. The clipper operation often results in heavy loss of blood. To control this hemorrhaging, an anti-blood agent is often administered. In other cases, the veterinarian pulls the arteries by use of "hemostats."

With the electrical saw, great care is required to avoid injuring the animal.

In dehoring cattle with fully-developed horns, two added safety steps are sometimes taken: 1) a local anesthetic is given to reduce pain and; 2) a tourniquet is used to stop severe bleeding. There is also another problem with older cattle. Their frontal sinus cavities extend into the base of the horns. If these cavities are left open, they are exposed to infection, so protection and medication may be needed during the healing process.

After dehoring, cattle should be kept under observation, for signs of bleeding or infection. If either problem appears, prompt action may mean saving the animal's life.

When the horn is more than three inches long, but still not mature, it can be removed safely and more humanely with improved technique. Most veterinarians switch to use of either a dehoring clipper or an electrically-operated saw.

Skill and training are needed with both of these, however. The clipper operation often results in heavy loss of blood. To control this hemorrhaging, an anti-blood agent is often administered. In other cases, the veterinarian pulls the arteries by use of "hemostats."

With the electrical saw, great care is required to avoid injuring the animal.

In dehoring cattle with fully-developed horns, two added safety steps are sometimes taken: 1) a local anesthetic is given to reduce pain and; 2) a tourniquet is used to stop severe bleeding. There is also another problem with older cattle. Their frontal sinus cavities extend into the base of the horns. If these cavities are left open, they are exposed to infection, so protection and medication may be needed during the healing process.

After dehoring, cattle should be kept under observation, for signs of bleeding or infection. If either problem appears, prompt action may mean saving the animal's life.

When the horn is more than three inches long, but still not mature, it can be removed safely and more humanely with improved technique. Most veterinarians switch to use of either a dehoring clipper or an electrically-operated saw.
